

UNIVERSITY ASSISTANT POSITION

<https://www.meduniwien.ac.at/web/karriere/offene-stellen/personalmitteilungsblatt-nr7-2/nr7-pathobiochemie-kennzahl-771/22/>

The Institute of Medical Genetics, Center of Pathobiochemistry and Genetics, at the Medical University of Vienna (<https://pbg.meduniwien.ac.at>) seeks to fill the position of a university assistant (postdoc; 40 hours/week) in the research group of Univ.Prof. Dr. Markus Hengstschläger. The Medical University of Vienna intends to increase the proportion of women in academic positions and therefore encourages qualified female candidates to apply. In case of equivalent qualifications, preference will be given to female applicants.

Qualifications:

Completed study (PhD) in genetics, molecular biology, biochemistry or related disciplines; experience in experimental basic research; autonomous innovative experimental working

Research topic:

The group studies the relevance of specific signal transduction pathways for different properties of human embryonic stem cells, induced pluripotent stem cells and amniotic fluid stem cells.
